Hi Mike,

Apologies for not getting back to your earlier email. We're trying to get this done as quickly as possible but we're also trying to coordinate this notice with the national notice that is making determinations of attainment, granting one-year extensions, and bumping up areas that failed to attain by the July 20, 2018 attainment date. That said, we don't think this will delay any redesignation request being prepared by WDNR. I don't have an exact date for the finalization of the split at this time.

Doug

Doug,
 My review of the docket shows that no adverse comments were submitted on this proposal. With no adverse comments to address, might you have any insight into EPA's likely timing to issue the proposal as final? Thanks.
 Mike
